ATTEMPTED SUICIDE

The Wife of Agent Reed at Garrison Drinks Carbolic Acid

Mrs. S. A. Reed, wife of a C. and O. operator stationed at Garrison, took carbolic acid with suicidal intent yesterday afternoon. She is in a serious condition, but will probably recover.

She gave no reason for her rash act, and it is more than likely that she is now glad that she did not succeed and close the book of life.

It required both Ryan and Senteney to put him in jail, as they had almost to carry him, he was so helplessly drunk.

TOBACCO TENANTS

Many Will Leave Nicholas County About March 1 Because of Unsettled Conditions in State

On account of the farmers throughout the county agreeing to cut out the tobacco crop for 1908, a number of the tenants in Nicholas county, who have hitherto made their living from the crops of tobacco grown each year, and who depended principally on this one product of the farm for their support, are now turning their attention to the Middle West, and a number of them will move there about March 1st, where the farming situation is more settled than in Kentucky today, on account of the tobacco trouble.

There are also a number of renters trying to secure lands for this year, but on account of the price have been unable to secure any. The tenants claiming that unless they were permitted to grow tobacco they would be unable to pay the high rent demanded by the landlords.

There are scores of tobacco tenants in Mason county who will be compelled to sell out and leave for other states or remain and starve at home.
